

The Australian Medical Acupuncture College

Medical Acupuncture Course

This course is organised and conducted by senior members of AMAC (Qld) and AMAC (NSW). It is designed to give medical practitioners a basic understanding of acupuncture, including Modern Technique and Traditional Chinese Medicine Concepts. The participants will receive both theoretical and practical teaching to enable them, upon completion, to commence acupuncture treatments on some simple conditions.

The course is of 12 months duration, commencing in October 2010. It will be in modular format with face to face lectures, tutorials and on-line learning.
